

## **The Best Approach To Concussion Management**

ImPACT is a computer generated program which will be used by the NHHS Athletic Trainers to obtain a neurocognitive baseline on all NHHS Interscholastic athletes. In the event the athlete sustains a head injury, the athlete will once again take the ImPACT test.

ImPACT is a sophisticated, research-based software tool developed to help sports-medicine clinicians evaluate recovery following concussion. The ImPACT program evaluates and documents multiple aspects of neurocognitive functioning including memory, brain processing speed, reaction time, and post-cocussive symptoms. In addition, the ImPACT program provides a user-friendly injury documentation system that facilitates the tracking of the injury from the field through the recovery process.

Please visit [www.impacttest/impactbackground.php](http://www.impacttest/impactbackground.php) for further information regarding the ImPACT Test.

NOTE: This program will begin once the grant is approved.  
Anticipated date: Fall 2008.
