Student Information Policy

The technology office has been notified by the county department of education office that a bill was passed in the NJ state legislature prohibiting the posting of personally identifiable student information on school web sites, unless a permission slip designed by the state is signed and returned for that student.

Personally identifiable student information is defined by the state as student names, student photos, student addresses, student email addresses, student phone numbers, and locations and times of class trips. These items do not have to be combined to be considered personally identifiable information.

AT THIS TIME, THE DISTRICT CANNOT POST ANY PERSONALLY IDENTIFIABLE STUDENT INFORMATION TO OUR WEBSITE!!! IF THERE IS PERSONALLY IDENTIFIABLE STUDENT INFORMATION ON ANY PART OF OUR WEB SITE, IT WILL BE REMOVED IMMEDIATELY!!!

For your information I am including the wording from NJSA Title 18A:36-35, which is the statute prohibiting this information posting.

18A:36-35 Disclosure of certain student information on Internet prohibited without parental consent.

1. The board of education of each school district and the board of trustees of each charter school that establishes an Internet web site, shall not disclose on that web site any personally identifiable information about a student without receiving prior written consent from the student's parent or guardian on a form developed by the Department of Education. The written consent form shall contain a statement concerning the potential dangers of personally identifiable information about individual students on the Internet.

As used in this act, "personally identifiable information" means student names, student photos, student addresses, student e-mail addresses, student phone numbers, and locations and times of class trips.

L.2001,c.402,s.1.

Here is a direct link to the NJ DOE web page concerning this matter...
