Silver Oak Learning Centers offer instruction in math, reading, writing, study skills and SAT/ACT preparation. Our process starts with identifying skill gaps and then developing an individualized learning plan. Your child is then matched with one of our state certified and experienced instructors. Each child's progress is monitored and updated daily. Our SAT/ACT program begins with the student taking a full length released SAT or ACT test, that is then scored and analyzed. One of our educational experts meets with each family to discuss areas for skill improvements, the strategies used and the child's college choices/scores required. An individual plan is developed so that your child may achieve his or her goals.
