## HOMEWORK: COUNTRY DECISION LOG

Date Due: \_\_\_\_\_

### Personal Decision Log *(to be completed by team members who did not serve as the Recorder)*

1. Referring to your Country Jigsaw note-taking grid, use Word or another word-processing program to compose a personal decision log describing your group's discussion and country choices. All responses must use standard sentence structure with correct spelling and grammar (***points will be deducted for use of instant-messaging language***).
2. Minimum of 3 paragraphs answering:
  - a. What countries did your group pick?
  - b. Of all the countries your group discussed, which three would **you** have picked?
  - c. Why do you believe those would have been the best countries for your group to work with?
3. Log in to your NiceNet classroom; in the links on the left of your NiceNet classroom, click on Class Schedule.
4. Scroll down to today's date and look for Personal Decision Log-Country Choices.
5. Click the Turn In link.
6. The document title should be your name.
7. In the document text box, copy and past the response that you typed in your word processor.
8. Click the Add Document button.
9. Print a copy of the Word or word-processing document and keep it in your binder.

### Group Decision Log *(to be completed by the group's Recorder)*

1. Write a decision log explaining the group's decision process for selecting the three countries. Some questions to consider include:
  - **What:** What three countries did your group select?
  - **How:**
    - How did you eliminate countries? What qualities were least attractive? (Location, red flags, qualifications, etc.)
    - How did you select countries? What qualities were most attractive? (Location, red flags, qualifications, etc.)
    - How did you determine an overall rating?
    - How did you reach a group consensus when not everyone initially agreed?
  - **Why:** Why will these countries be attractive to potential tourists? Be specific and convincing.
- Save your decision log as a Word document (.doc) or text (.txt) file and copy the text into NiceNet, following steps 3-9 above. (In step 4, look for Group Decision Log-Country Choices.)
