About the Club:

Our club consists of individuals who are interested in all aspects of gaming. We get together to share our information, interest, and experiences with gaming. Primarily, we focus on organizing and taking part in LAN Parties which take place on five Fridays throughout the school year from roughly 3:30 to 8pm. At these parties, our members bring in their consoles and computers and play game in each other's company.

We try to have a party in each of the following months:

- October
- December
- February
- April
- May

Meetings will be announced throughout the school year on the morning and afternoon announcements. Typically we will have a meeting directly before and after one of our parties.

Additionally, we try to have at least two fundraisers a year.
