1. [5] Write the significant digit rules

- a.
- b.
- c.
- d.
- e.
- 2. [2] Write the sig fig rule for multiplication and division
- 3. [3] Write the sig fig rule for addition and subtraction
- 4. Compute. Report your answer with the proper number of sig figs.

$$7 \div 3 = 10.3 - 0.45 = 75 \div 25 = 95.4 + 6.5 = 95.4 + 6.5 = (95.4 + 6.5) \div 3 = 644$$
