Contact information: ncastello@nhvweb.net ext 2026

Students for Change focuses on establishing relationships between high school students from vastly different backgrounds - social, economic, cultural. We are in a relationship with a few schools and organizations in Camden and get together with our Camden friends several times throughout the year. We engage in community service programs, self and peer discovery, leadership and team building events.

Students for Change raises money through fundraising activities to help pay for transportation to and from Camden and provisions for events. We meet once or twice a month, usually on Thursdays. When an event is being planned, meetings happen once or twice weekly.
